

"THE LEAK DETECTIVES"

"WE SPECIALIZE IN LEAK DETECTION SERVICES"

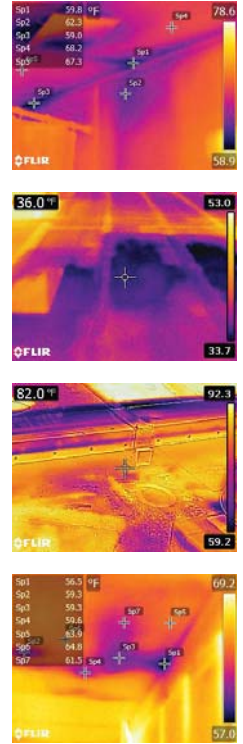

With JEM you get a knowledgeable design professional and the work of an experienced contractor all in one, with over 30 years experience. This approach has proven that water testing can be hassle-free and highly beneficial to our clients.

We Have Performed Successful Applications of Water Testing on:

- ✓ Residential Buildings
- ✓ Single Family Residences
- ✓ Multi-Family Residences
- ✓ Condominiums & Co-ops
- ✓ Apartments
- ✓ Senior Living Homes & Centers
- ✓ Assisted Living
- ✓ Offices

JEM'S Leak Investigation and Testing Services specialize in the building envelope, its design, construction, and maintenance. Our experience includes all types of roofing, siding, skylights, windows, doors, and more. We can perform a thorough investigation and evaluation of an existing building envelope and waterproof system. We will provide you with recommendations and methods for any rework that might be necessary.

Our Leak Investigation and Testing Services: Can develop and implement a plan of remediation to address your buildings problem. We can then provide you with the repair services to insure the remediation is completed successfully. In many cases the required repairs were simple and done by the HOA maintenance crew.
