

“Client Testimonials”

February 20, 2018

To Whom It May Concern:

I am one of the Condo Owner's at The Highlands Condominiums in Port Jefferson, NY. Back in 2016 one half of the building my unit is in was destroyed by fire. I am grateful my unit was not affected.

The HOA hired a contracting company, JEM Consolidated Corp. to re build the 8 Units lost to the fire.

I want to thank Ed Faulkner the Owner of JEM and all those that worked with him for the amazing job they did rebuilding our condo building. Their work was impeccable, and the finished units are beautiful.

More importantly, my neighbors who suffered the loss of their properties (My Friends) said that JEM worked hand in hand with them handling any problems that arose during the entire project. JEM's crews also exhibited a high level of respect to those of us who were still living in the construction zone.

JEM has proven to me they are truly a compassionate and caring company, as well as being skilled professionals who perform at the highest level of workmanship. I would highly recommend them to anyone at all!
