

“Client Testimonials”

2009

Dear Ed,

I just want to take this opportunity to THANK YOU AND YOUR ENTIRE STAFF at JEM. You are not only very talented people, you really are kind and considerate people. I know you asked about a letter when we are done. I could write you a novel!

Your company which handled our complete design of our whole house renovation including a complete 2nd floor addition. Your design input was invaluable to both Anthony & I. The complete process turned out to be amazingly painless from our aspect. The assistance, direction, and guidance was remarkable to say the least!

The communication throughout the project you afforded us was so comforting and appreciated.

The house now completed inside to outside looks absolutely BEAUTIFUL!! We have been more than impressed in every aspect. Every crew member has been very polite and accommodating which is also a wonderful compliment to you. Our neighbors are also extremely impressed with JEM.

We are beyond pleased. Will be giving your number to a teacher I work with. I will tell her to mention my name as a reference.

As always, **THANK YOU** very much. We are all in such amazement. We have been "singing" praises for you and your crew since day 1.

Thanks so much,

Cindy & Anthony Ricci
