

## *“Client Testimonials”*

---

2007

Ed,

We would like to express our sincere appreciation on a job well done. We are extremely pleased with the results of the two separate projects you completed for us. First was the complex first and second floor additions you completed on our home in 2006. Then we hired you again to do our large custom kitchen.

Ed, we felt an immediate feeling of trust when we first met with you. That feeling is even stronger now after our pleasant experience throughout these two projects.

Your staff and sub-contractors were wonderful; always professional, knowledgeable, neat and courteous. Both projects were clearly well designed, planned, and managed successfully from the start through completion with minimal disruption to our lives. You exceeded our expectations and gave us peace of mind. We love our new addition & custom kitchen, and wouldn't think of using anyone else for future projects.

Sincerely

*Dennis & Robin Iulucci*
