

“Client Testimonials”

2006

Dear Ed,

Heidi and I just wanted to thank you for the great job you did on our roofing & remodeling project. It was a pleasure dealing with you every step of the way. We love spending time in our home now. It looks great and gets many compliments.

We are especially impressed by the professionalism of you and all your colleagues at JEM. Going into the project, we were concerned about the coordination of all aspects of the project, and with us not being home as we both work full time. Well we never had one issue or concern, and your attention to every detail and communication, proved those early concerns were unwarranted.

We can now see what you meant when you said your efficiencies is what makes hiring JEM affordable.

Thanks again for turning our home into the showcase it now is!

Sincerely,

Jay C. Schnitzer
